

EMS I/C

A TRAINING COURSE FOR EMTS WHO WANT TO BECOME EFFECTIVE EMS INSTRUCTORS

Emergency Medical Services Instructor/Coordinator Course

Nov/Dec, Attleboro

A Hybrid Online/Onsite Program

The EMS Instructor/Coordinator Course is offered to prepare the interested EMS provider to become an effective EMS educator. The candidate will become familiar with theories of learning, application of theories to teaching the adult learner, preparation of educational materials, methods of teaching and evaluation, utilizing technology in and outside of the classroom, textbook and materials selection, presentation of material, and State accreditation and adminis-

trative issues relating to teaching EMS.

Emergency Medical Services Instructor/Coordinator is taught as a hybrid online/onsite course. Two weeks of reading and online assignments start the course and are followed by three full weekend days of experiential training and discussion with continued online work. Online work must be completed on time- because much of it is interactive, late postings do not allow classmates the benefit of your work. Extensions will only be given for true emergencies after consideration by the instructor.

Attendance at all meeting dates is mandatory for successful course completion.

Go to www.wepsEducation.com for more information.
